 5. Private Claims Southwest corner of Private Claim 222, common with the northwest corner of Private Claim 650

I, Craig P. Amey, in a field survey on June 24, 2010 do hereby state that under requirements of P.A. 74, Michigan P.A. of 1970, the corner points mentioned in lines 1 and 2 above were in conformance with regulations and rules therefore as required in the current manual of survey instructions of the United States Department of the Interior, Bureau of Land Management or by a decree of a Court of Law and /or that the corner points mentioned in lines 3, 4 and 5 above were in conformance with the rules of the Michigan Board of Land Surveyors or by a Decree of a Court of Law; established, re-established, monumented, recovered, found as expressed below:

NOTE: Not more than 2 corners, all in the same town and range, may be recorded on this certificate.

A. Description of original monument and accessories and/or subsequent restoration:

Item	Date	L	P	Document	Name	#	Cor. Desc.
1	1817	--	--	Township Plat	William Preston	--	Not Stated
2	1828	--	--	Private Claim Notes	John Mullett	--	Post
3	1929	14	21	Assessors Plat No. 5	Walter J. Lehner	123	Conc. Monument
4	1942	21	38	Assessor's Plat 50	Vernon Wilson	3032	Conc. Monument
5	1953	29	2	Taubitz Sub'n No. 1	Claude Postiff	--	Not Stated
6	1954	29	47	Palombit Subdivision	John J. McMahon	4018	Conc. Monument
7	1955	33	46	Shell California Subdivision	John S. Novak	5437	Conc. Monument

B. Description of corner evidence found and/or method applied in restoring or reestablishing corner:

The calculated corner position falls in the centerline of Beaconsfield Avenue (concrete). No existing monumentation was found at this location. I determined the location of this position by intersecting the Private Claim line as defined by subdivision lines with the centerline of Beaconsfield Avenue. The centerline of Beaconsfield was confirmed as the westerly lines of the Private Claims from the subdivision plats.

To establish the centerline of Beaconsfield Avenue, I located existing monumentation along the west right of way line of Beaconsfield Avenue from 8 Mile Road to 9 Mile Road. Most of the easterly right of way of Beaconsfield Avenue is now I-94 right of way with no monumentation referencing the centerline of Beaconsfield Avenue. (Cont. on Back)

C. Description of monument for corner and accessories established to perpetuate locating the position of the corner:

I set a 2" aluminum cap stamped "MACOMB COUNTY MONUMENT MI ACT 345 1990 MCL PC 016 PS 34970" on a 3/4" x 24" iron in a new monument box.

- AZ 95° 49.72' Set chiseled "X" in the north rim of storm manhole on the east side of Beaconsfield across from house #22333
- AZ 170° 93.74' Set CST nail and MCR tag in north face of a utility pole on the east side of Beaconsfield at the easterly extension of the centerline of Holland
- AZ 230° 120.13' Set chiseled "X" on the north rim of a gate valve manhole on the southwest corner of Beaconsfield and Holland
- AZ 325° 27.56' Set CST nail and MCR tag in the southwest face of a light pole on the west side of Beaconsfield at house #22333

THE SELECTED LOCATION IS ACCEPTED BY ME AND IS GENERALLY ACCEPTED BY PROFESSIONAL SURVEYORS AS THE BEST AVAILABLE EVIDENCE OF THE POSITION OF THIS CORNER.

Signed by Craig P. Amey

 5. Private Claims Southwest corner of Private Claim 222, common with the northwest corner of Private Claim 650

B. Description of corner evidence found and/or method applied in restoring or reestablishing corner:

(Cont. from front)

There are some developments on the easterly side of Beaconsfield Avenue near 8 Mile Road, but there was no found monumentation along the right of way of these developments. Analysis of the Beaconsfield Avenue right of way monumentation indicated a deflection in the centerline. Record plats also indicate a deflection. I determined the deflection to be 00°02'08". The record deflection is 00°02'00". To establish the subdivisions, interior monumentation was found and located. Most monumentation was located at intersections. In areas where insufficient monumentation at the intersections was available, property corners along the subdivision streets were located (very few). Additionally, any occupation evidence along the Private Claim line was located.

The intersection of the Southerly line of Assessor's Plat 50 with the calculated centerline of Beaconsfield Avenue was within 0.07' of the record location.

2010 Remonumentation Corner: PC 016

In 2010, we were contracted by Macomb County to remonument PC 016 which is the southwesterly corner of Private Claim 222 which is common with the northwesterly corner of Private Claim 650, pursuant to ACT 345 of 1990.

In early February, I solicited information from area surveyors. None of the surveyors contacted had any unrecorded information pertinent to this corner. I also researched the public records. No surveys were recorded that reference this corner. I did find 5 plats that referenced the corner. The plats are:

1. Assessors Plat No. 5, L 14, P 21
2. Assessor's Plat 50, L 21. P 38
3. Taubitz Sub'n No. 1, L 29, P 2
4. Palombit Subdivision, L 29, P 47
5. Shell - California Subdivision, L 33, P 46

The calculated corner position falls in the centerline of Beaconsfield Avenue (concrete). No existing monumentation was found at this location. I determined the location of this position by intersecting the Private Claim line as defined by subdivision lines with the centerline of Beaconsfield Avenue. The centerline of Beaconsfield was confirmed as the westerly lines of the Private Claims from the subdivision plats.

To establish the centerline of Beaconsfield Avenue, I located existing monumentation along the west right of way line of Beaconsfield Avenue from 8 Mile Road to 9 Mile Road. Most of the easterly right of way of Beaconsfield Avenue is now I-94 right of way with no monumentation referencing the centerline of Beaconsfield Avenue. There are some developments on the easterly side of Beaconsfield Avenue near 8 Mile Road, but there was no found monumentation along the right of way of these developments. Analysis of the Beaconsfield Avenue right of way monumentation indicated a deflection in the centerline. Record plats also indicate a deflection. I determined the deflection to be $00^{\circ}02'08''$. The record deflection is $00^{\circ}02'00''$.

To establish the subdivisions, interior monumentation was found and located. Most monumentation was located at intersections. In areas where insufficient monumentation at the intersections was available, property corners along the subdivision streets were located (very few). Additionally, any occupation evidence along the Private Claim line was located.

The intersection of the Southerly line of Assessor's Plat 50 with the calculated centerline of Beaconsfield Avenue was within 0.07' of the record dimension.

I believe that the method described above has determined the best location of the southwesterly corner of Private Claim 222 which is common with the northwesterly corner of Private Claim 650 (PC 016).

Respectfully Submitted,

Craig P. Amey, PS
