Christopher A. Asiala, in a field survey on July 21 & Oct 31, 2011 do hereby state that under requirements of P.A. 74, Michigan P.A. of 1970, the corner points mentioned in lines 1 and 2 above were in conformance with regulations and rules therefore as required in the current manual of survey instructions of the United States Department of the Interior, Bureau of Land Management or be a decree of a Court of Law and/or that the corner points mentioned in lines 3, 4 and 5 above were in conformance with the rules of the Michigan Board of Land Surveyors or by a Decree of a Court of Law; established, re-established, monumented, recovered, found as expressed below:

NOTE: Not more than 2 corners, all in the same town and range, may be recorded on this certificate.

A. Description of original monument and accessories and/or subsequent restoration:

- (1) 1810 Post Private Claim Notes A. Greeley
(2) 1818 GLO Notes W. Preston
(3) 1818 GLO plat maps
(4) 1875 Atlas from 1875
(5) 1895 Atlas from 1895
(6) 1916 Atlas from 1916
(7) 1916-1940 School district map of PC 628
(8) 1946 Kelly Nunneley Sub. WJ Lehner #123 L23, P24

B. Description of corner evidence found and/or method applied in restoring or reestablishing corner:

Nothing was found at the position of Corner PCC-024 which is at the intersection of the section line common to sections 21 and 28 with the east line of Private Claim 628. The corner falls within the median of Metropolitan Parkway.

The only record evidence as to this corners position is sheet #13 of Addressograph Department records (circa 1950's) which gives dimensions from F-09 to this position and also from PCC-012 to this position. The current measurement between F-09 to PCC-012 is 3549.35' which compares to the Addressograph map of 3550.45'. I used these dimensions to prorate from F-09 along a straight line between F-09 and PCC-012. I uncovered no other field or record evidence as to the position of this corner. (see reverse for sketch)

Field measurements were observed between the following corners:

Table with 4 columns: Measurement, PCC-024 to PCC-012, PCC-024 to PCC-023, PCC-024 to F-09. Includes values like 3020.40' (M) 2011, 1793.74' (prorated), 432.41' (M) 2011, 1755.60' (prorated), etc.

C. Description of monument for corner and accessories established to perpetuate locating the position of the corner:

I set a 1/2" x 36" iron rod incased within 4" diameter concrete with a 2" aluminum cap stamped "MACOMB COUNTY MONUMENT MI ACT 345 CAA 49376 PCC-024" within the grass median of Metropolitan Parkway. Witness ties are as follows:

- N05°E 105.74' Set Mag nail with M.C.R. washer in south face 12" Elm.
DUE E 77.90' Set Mag nail with M.C.R. washer in north face 4" Maple.
S70°W 50.10' NE corner of catch basin rim.
DUE W 71.13' Set Mag nail with M.C.R. washer in east guard rail post.
N70°W 50.71' SE corner of catch basin rim.

The selected location is accepted by me and generally accepted by professional surveyors as the best available evidence of the position of the original corner.
