I, ROGER J. STECKER, in a field survey on September 18, 2014 do hereby state that under requirements of P.A. 74, Michigan P.A. of 1970, the corner points mentioned in lines 1 and 2 above were in conformance with regulations and rules therefore as required in the current manual of survey instructions of the United States Department of the Interior, Bureau of Land Management or by a decree of a Court of Law and/or that the corner points mentioned in lines 3, 4 and 5 above were in conformance with the rules of the Michigan Board of Land Surveyors or by a Decree of a Court of Law; re-established, monumented, recovered, found as expressed below:

**NOTE: Not more than 2 corners, all in the same town and range, may be recorded on this certificate.**

A. Description of original monument and accessories and/or subsequent restoration:

B. Description of corner evidence found and/or method applied in restoring or reestablishing corner:  
 No evidence of the original post was found. I consider it an obliterated corner.

No evidence of the original post or the common line between Private Claim 693 and Private Claim 144 were found at the described location. I established the Northeast Corner of Private Claim 693 at record angle from the Northwest Corner of Private Claim 693 based on record bearings from the plat of "Survey and Subdivision of P.C. 693", item #2, section "A". Then I established the west line of Private Claim 144 at the township line between Harrison Township, T.2N., R.14E. and Chesterfield Township, T3N., R.14E. from evidence found in Certificate of Survey, item #6, section "A". For the west line of Private Claim 144 I held the point established at the previously accepted PC-042, being the Southwest Corner of Private Claim 144 common with a deflection point in the easterly line of Private Claim 129. The point was set at the intersection of the north line of "Survey and Subdivision of P.C. 693" and the west line of Private Claim 144. The point falls north of the north end of the runway for Selfridge ANG Base in a grass field, with no lines of occupation.

Measurements Between Corners:  
 See Page 2

C. Description of monument for corner and accessories established to perpetuate locating the position of the corner:  
 I set a 4" diameter by 36" long concrete monument with a 1/2" iron rod w/2" diameter Aluminum cap stamped "Macomb County Monument Act 345, PS 30103 PC-046"

Witnesses:

- N75°E 170.15' To a 2" brass cap near the southeast corner of concrete pad for runway lights.
- N10°E 106.30' To a 2" brass cap near the southwest corner of concrete pad for runway lights.
- S45°E 82.98' To the northwest corner of a 4.5'x4.5' concrete pad around an electric manhole.
- S50°W 16.87' To a cut "x" on north rim of electric manhole.

The selected location is accepted by me and is generally accepted by Professional Surveyors as the best available evidence of the position of the original corner.

**GLO HISTORY:**

**Description of P.C. 693**

Commencing at a post standing on the north border of River Huron between this tract and a tract confirmed to John Askin, Junior, thence north two hundred and one chains thirty seven links to a post standing between this tract and unconceded lands, thence east fifty three chains fifty links to a post standing on the west line of a tract confirmed to John Tucker, thence south eighty four chains seven links to an elm tree the northeast corner of a tract confirmed to James Conner, thence west forty chains fifty links to a post the northwest corner of the said James Conner tract, thence south one hundred and ten chains sixty two links to a post standing on the north border of River Huron thence along the border of said river up stream south sixty four degrees west fourteen chains seven links to the place of beginning, containing six hundred acres.

**Description of P.C. 144**

Commencing at an oak tree standing on the border of River Huron between this tract and a tract confirmed to James Connor thence north sixty seven degrees west six chains sixty links to a swamp oak tree thence north three hundred and sixty two chains twenty eight links to a post, thence east seventeen chains eighty links, to a post the north west corner of a tract confirmed to Edward Tucker, thence south three hundred and forty eight chains forty one links, to a post standing on the border of River Huron, thence along the border of said River up stream south thirty five degrees thirty minutes west twenty chains twenty links, to the place of beginning, containing six hundred and thirty nine acres.

**EXISTING CONDITIONS:**

No evidence of the original post or the common line between Private Claim 693 and Private Claim 144 were found at the described location. . I established the Northeast Corner of Private Claim 693 at record angle from the Northwest Corner of Private Claim 693 based on record bearings from the plat of "Survey and Subdivision of P.C. 693", item #2, section "A". Then I established the west line of Private Claim 144 at the township line between Harrison Township, T.2N., R.14E. and Chesterfield Township, T3N., R.14E. from evidence found in Certificate of Survey , item #6, section "A".

For the west line of Private Claim 144 I held the point established at the previously accepted PC-042, being the Southwest Corner of Private Claim 144 common with a deflection point in the easterly line of Private Claim 129. The point was set at the intersection of the north line of "Survey and Subdivision of P.C. 693" and the west line of Private Claim 144. The point falls north of the north end of the runway for Selfridge ANG Base in a grass field, with no lines of occupation. The location is marked with a temporary spike.

I recommend to the Peer Group to accept the established position of PC-046 as the best evidence of the corner position.
