### GLO SURVEY HISTORY

Researching the government survey records for Macomb County shows that the North and West lines of Armada Township were surveyed and the township was subdivided into sections with closing corners set on the North and West township lines by William Preston, D.S. in 1817. A post was set at the East ¼ corner of Section 22 and West ¼ corner of Section 23.

#### WITNESSES:

(Based upon Government Survey Records)  
Set post in marsh, no witnesses

### EXISTING CONDITIONS

The original government post has been obliterated and the witness trees have been destroyed. The corner has been perpetuated with a large rock (18"x19"x9") with chiseled "X" located 2 feet East of the existing center line of True Road extending to the North and South, which has a gravel surface, with a fence/tree line extending to the East. Also, found a ½" Iron Rod 0.70 feet North of the large rock.

### LCRC AND RECORDED SURVEYS

The witnesses for the above mentioned recorded Land Corner Recordation Certificate along with the recorded and unrecorded Certificate of Surveys were used to verify the location of the found ½" Iron Rod that is North 26°E 0.80 feet of a large rock with chiseled "X" as of April 27, 2005. I therefore, recommend to the Macomb County Peer Group that they accept the large rock with chiseled "X" as found as the best evidence of the corner position as being perpetuated.
