OC-088 - PC195-147TWP: Intersection of the East line of Private Claim 195 common with the West line of Private Claim 147, with the Township line common to Harrison Township T2N R14E and Chesterfield Township T3N R14E. Common with OC-074 Harrison Township T2N R14E.

GLO Survey history:

Survey of PC 195 was performed by A. Greeley in 1810.
 Survey of PC 147 was performed by A. Greeley in 1810.
 GLO Survey was performed by William Preston, D.S. in 1817.

Researching the government survey records for Macomb County I have found that the Chesterfield Township was surveyed and subdivided not according to then in force Manual of Surveying Instructions. Due to presence of Lake St. Clair in the Southeast portion of the Township and numerous Private Claims along the shore exterior boundaries of the Township were established by William Preston, D.S. in 1817 in the following manner and order:

1. South boundary was run East from the Southwest Twp. corner.
2. East boundary was run South from the Northeast Twp. corner.
3. North boundary was run West from the Northeast Twp. corner.
4. West boundary was run South from the Northwest Twp. corner.

GLO Survey of South boundary of Chesterfield Twp. (North boundary of Harrison Twp.) stopped at C-13 and according to available data it was never surveyed as a whole East of C-13 to its Eastern terminus at the shore of Lake St. Clair. Location of OC's East of C-13 along the Township line (e.g. OC's-086, 087, 088, 089, 084) shall be established based on local evidence.
