Web Mapping Application	ArcGIS AppStudio	ArcGIS AppStudio is a groundbreaking tool in the GIS app revolution. For years, organizations have had to hire expensive third-party developers to build consumer-friendly GIS apps. Now, ArcGIS AppStudio puts the power back in your hands. It lets you convert your maps into beautiful, consumer-friendly mobile apps that you can share with the public through all popular app stores or securely within your own enterprise. Build an app once, and it is automatically ready for Android, iOS, Windows, OS X, and Linux. To use your maps in AppStudio, you must have an ArcGIS organizational account. Your maps can include data from ArcGIS Online and ArcGIS for Server. For more information, please visit http://appstudio.arcgis.com.	'appstudio', 'web', 'appstudiostandard'
